

# CURRENT AND PROPOSED REALLOCATIONS OF AGRICULTURAL WATER TO OTHER USES IN CALIFORNIA

The following lists several existing programs and proposals in the State of California to reallocate agricultural water to other uses. The purpose of this list is not to precisely describe each program, but instead to illustrate the magnitude of water that has already been reallocated or is being considered for reallocation from agriculture to other uses.

	<u>Acre-Feet Annually</u>
• COLORADO RIVER (6/6/97 Draft Concept Plan)	700,000
• CVPIA	
“(b)(2)” dedicated water	800,000
AFRP and (b)(3) water	600,000
Trinity releases	340-427,000
• CALFED	
Pulse flows	300-500,000
Conjunctive use (San Joaquin Valley)	0-500,000
Conjunctive use (Sacramento Valley)	0-500,000
Water transfers	?
• MONTEREY AGREEMENT	175,000
• DWR SUPPLEMENTAL WATER PURCHASE PROGRAM	400,000
TOTAL	3.3 to 4.5 maf
